

New Principal Moderator appointed

We'd like to inform you that Professor John Raine, Regional Chief Executive, Massey University Albany, has been appointed as the Principal Moderator to head the Moderation Panel for the PBRF Quality Evaluation scheduled for 2012. The Moderation Panel oversees the Peer Review Panels, ensuring that standards are consistent across the panels and that the PBRF guidelines are properly adhered to.

Prof. Raine was Chair of the Engineering, Technology and Architecture Panel in the 2006 quality evaluation and is a member of the current PBRF Sector Reference Group.

Later in 2010

In April this year we will have the finalised set of PBRF Sector Reference Group recommendations to the TEC on the redesign of the 2012 PBRF Quality Evaluation. These will be made available on our website along with a response from the TEC.

Also, in July this year we aim to make the PBRF Guidelines 2012 available on our website. These will replace the PBRF Guidelines 2006.

More information on the [PBRF fund](#) is on our website.

If you have any further questions, please contact your Investment Manager or our Service Centre on 0800 601 301 or servicecentre@tec.govt.nz

TEC Now - now available on the TEC website

All TEC Now reminders that we send are now available to view on the [TEC website](#). You can also subscribe to the RSS feed that means everytime a TEC Now is put on the website, you will be notified.

This will ensure you get the information you need, when you need it.
