The Performance of Tertiary Education Organisations

The Institute of Technology or Polytechnic sector Year: 2010

64%

Level 1-2 Level 3-4 71% Level 5-6 72% Level 7-8 84%

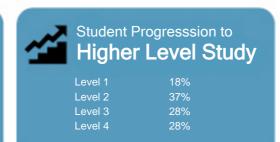

This measure shows the proportion of courses in a given year that are successfully completed.

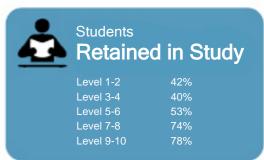

Level 7-8

Level 9-10

This measure shows the proportion of students in a given year who complete a qualification.

This measure shows the proportion of students in a given year who progress to study at a higher level after completing a qualification at levels 1 - 4.

This measure shows the proportion of students in a given year that complete a qualification or re-enrol at the same tertiary education organisation in the following year.

About the Institute of Technology or Polytechnic sector

In 2010, the TEC funded 20 Institutes of Technology and Polytechnics (ITPs) through Student Achievement Component funding, for fewer than 1,000 to over 8,000 equivalent full-time student places.

The nature of enrolments at a specific ITP will influence its performance. For example, part-time and extra-mural students often have work or family commitments and cannot devote as much time and energy to their studies. They may also have different study goals.

An increase in enrolments in lengthy qualifications in 2010 may lower some TEOs' qualification completion rate.

Government expectations of the Institute of **Technology or Polytechnic sector**

The government expects ITPs to:

- Enable a wide range of students to complete industry relevant certificate, diploma and applied degree qualifications
- Enable a local access to appropriate tertiary education
- Support students with low literacy, language and numeracy skills to improve these skills and progress to higher levels of learning
- Work with industry to ensure that vocational learning meets industry needs.

Tertiary Education Strategy

The Tertiary Education Strategy calls for better performance from the tertiary education sector as well as raising achievment for all learners under 25, and for Māori and Pacific learners
