

### Performance of Tertiary Education Organisations Education Performance Indicators (new methodologies) Literacy Aotearoa: 2015 Reporting Year

#### **Content of this report**

#### 1. 2015 Rates for the four educational performance indicators showing the new methodologies

This report provides the 2015 rates for the educational performance indicators (EPIs) for Literacy Aotearoa:

- first year retention rate (new methodology)
- · cohort-based qualification completion rate (new methodology)
- course completion rate (existing methodology)
- progression rate (existing methodology).

The new methodologies provide a more meaningful reflection of a tertiary education organisation's performance. Unlike the EFTS-weighted qualification completion rate, the cohort-based measure tracks individual enrolments in qualifications and is not susceptible to rate changes due to external factors such as fluctuations in enrolment patterns or counting multiple completions for the same learning (e.g., through embedded qualifications). The methodology and rules for calculating the cohort-based qualification completion and the first year retention rates can be found <a href="here">here</a>.

The rules and methodologies for the course completion rate and the progression rate have not changed. However, this report uses different grouped register levels than in previous reports to align with the groupings for the new cohort-based qualification completion and first year retention rates.

Note that the overall cohort-based qualification completion rate can be impacted by the proportion of part-time students at a provider. The rate may also not include completions where learners are enrolled in longer qualifications and does not reflect when learners transfer to another TEO before completing a qualification.

Note the new cohort-based qualification completion rate and first year retention rate counts enrolments for all funding sources while the course completion and progression rates only include student achievement component funded enrolments.

#### 2. Supplemental information for cohort-based qualification completion and first year retention rates

The report also includes supplemental information to support the cohort-based qualification completion rate and first year retention rates:

- · Information comparing the relative ranking of a TEO within its sub sector when using the existing and new methodologies for the qualification completion and retention rates
- Because of significant differences in how part-time students engage in and complete qualifications we show the volume and proportion of part-time versus full-time learners
- · Because students may change their course of study part-way through we show:
  - o For qualification completions when students complete or progress to a lower or higher level qualification without completing a qualification at the same level that they initially enrolled in
  - o For 1st year retention When students complete a qualification or progress to a lower or higher level qualification without being retained at the same level after the year they enter the cohort

#### **Cohort-Based Qualification Completion Rate**

This measures the number of learners out of a starting cohort who complete a qualification at the same level after a given time-frame. The rate includes, based on level of study, learners who started in 2010, 2012 and 2014.

**n/a values or blank fields** indicate that there is no data for the indicator for this organisation.

TEO: Literacy Aotearoa

<sup>\*</sup> indicates that the data has been suppressed as one or more of the values is less than 10.

#### **First Year Retention Rate**

This rate measures, for longer qualifications, how many learners re-enrolled at the same level in the year after they enter the cohort.

#### **Relative Results Across Educational Performance Indicators**

#### **Cohort-based qualification completion**

This measures the number of learners out of a starting cohort who successfully complete at the same level after a given time-frame.

#### First year retention rate

This rate measures, for longer qualifications, how many learners re-enrolled in the same level in the year after they enter the cohort.

#### **EFTS-weighted course completion**

This measure shows the proportion of Student Achievement Component funded courses that are successfully completed.

### Student progression to higher levels of study

This measure shows the proportion of students in a given year who progress to study at a higher level after completing a Level 1 to 4 Student Achievement Component funded qualification.

# **Supplemental and Comparative Information Cohort-based Qualification Completion and First Year Retention Rates**

The following tables and graphs provide supplemental information on the cohort-based qualification completion rate and the first year retention rate, and should support a fuller understanding of these two rates.

#### **Cohort-Based Qualification Completion Rate**

#### Part-time vs full-time study and completions/progressions to lower or higher levels

The following table shows the volume of part-time versus full-time learners studying at different register levels. It also shows when learners have completed a lower-level or higher-level qualification from which they originally started.

		Number of learners in starting cohort		Qualification	Other qualificat	ion completion	Non-completion progression		
					completion	Higher level	Lower level	Higher level	Lower level
Cohort	Starting cohort year	Full-time	Part-time	All	Rate	Rate	Rate	Rate	Rate
Level 1 to 3	2014								
Level 4 to 7 (non degree)	2012	*	369	*	49%	0%	0%	0%	0%
Level 7 degree	2010								
Level 8 to 10	2010								

**Qualification completion:** This measures how many learners in a cohort successfully complete at the same level.

**Qualification completion at other levels:** This measures how many learners in a cohort, who have not completed a qualification as part of the cohort but have completed a qualification at a higher or lower level.

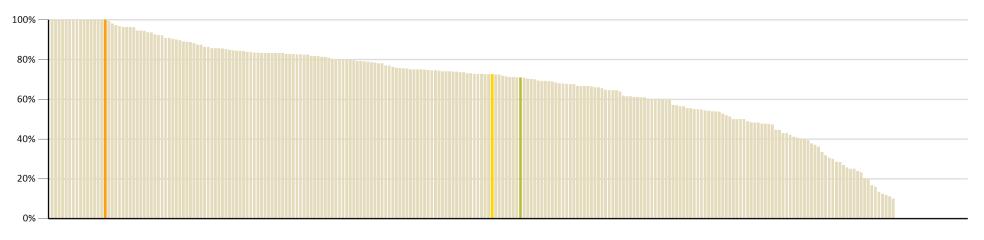

Non-completion progression: This measures how many learners in the cohort progress to a higher or lower level without having completed a qualification at the level they started.

n/a values or blank fields indicate that there is no data for the indicator for this organisation.

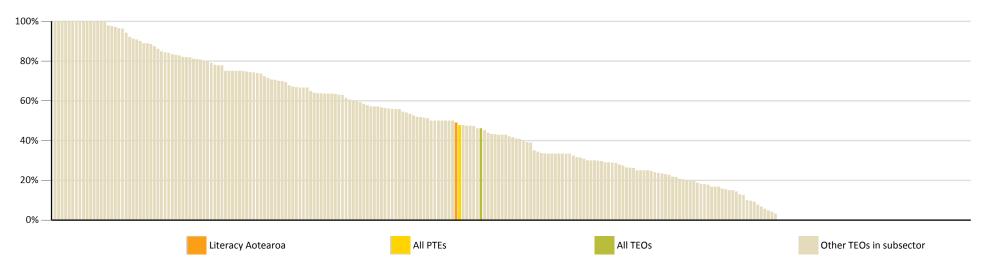

<sup>\*</sup> indicates that the data has been suppressed as one or more of the values is less than 10.

#### Comparing Relative Rankings: EFTS-Weighted Qualification Completion Rate vs. Cohort-Based Qualification Completion Rate

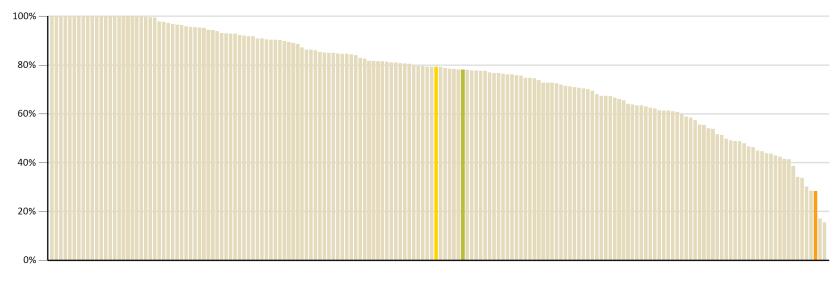

EFTS-weighted qualification completion rate (original) Student achivement component provision only
The measures the number of qualifications completed at

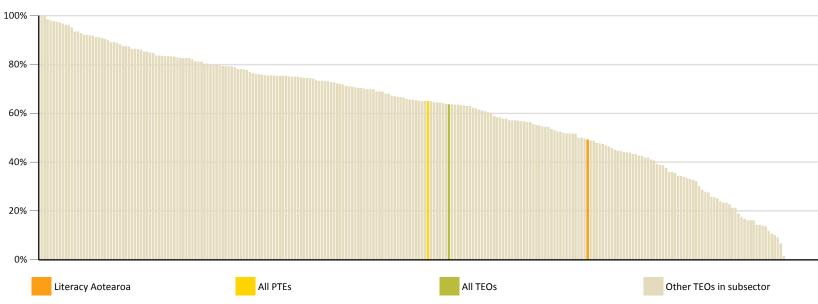

qualifications completed at each TEO, weighted by the 'size' of the qualification, divided by the total number of EFTS delivered for the total course enrolments in a given year.

### Cohort-based qualification completion rate (new)

This measures the number of learners out of a starting cohort who successfully complete at the same level after a given time-frame.

In contrast to the EFTS-weighted qualification completion rate, the cohort-based measure counts unique individuals and is not susceptible to rate changes due to external factors such as fluctuations in enrolment patterns or artificially increased rates through counting multiple completions (e.g., through embedded qualifications).

 $\ensuremath{\text{n/a}}$  values or blank fields indicate that there is no data for the indicator for this organisation.

\* indicates that the data has been suppressed as one or more of the values is less than 10.

#### **First Year Retention Rate**

The following table provides supplemental information on the first year retention rate, and should support a fuller understanding of these rates.

		Cohort First year retention		Completion	Progression		
Cohort	Starting cohort year	Total number	Rate	Rate	Higher level	Lower level	
Level 4 to 7 (non degree)	2014						
Level 7 degree	2014						
Level 8 to 10	2014						

First year retention rate: This rate measures, for longer qualifications, how many learners from the starting cohort are retained in study in the year following the year they enter the cohort.

**Completion:** This measures how many learners have not been retained because they completed the qualification.

Progression: This measures how many learners who have not been retained but have progressed to either a higher or lower level.

 ${\bf n/a}$  values or blank fields indicate that there is no data for the indicator for this organisation.

TEO: Literacy Aotearoa

<sup>\*</sup> indicates that the data has been suppressed as one or more of the values is less than 10.

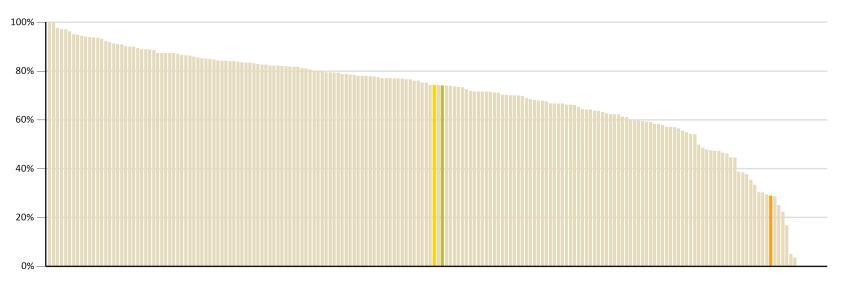

#### **Comparing Relative Rankings: Student Retention Rate vs. First Year Retention Rate**

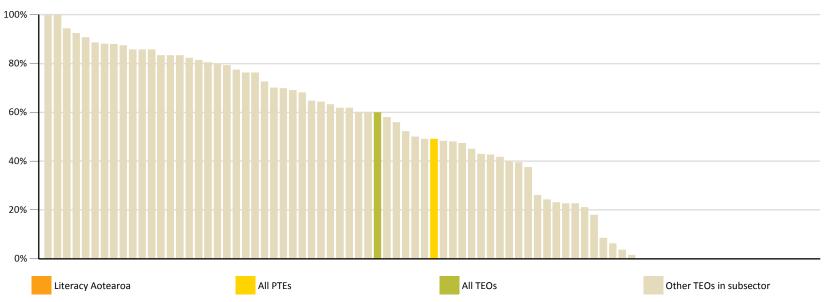

### Student retention rate (original)

This measure shows the proportion of students in a given year that complete a qualification or re-enrol at the same tertiary education organisation in the following year.

#### First year retention rate (new)

This rate measures, for longer qualifications, how many learners re-enrolled in the same level in the year after they enter the cohort.

 $\ensuremath{\text{n/a}}$  values or blank fields indicate that there is no data for the indicator for this organisation.

\* indicates that the data has been suppressed as one or more of the values is less than 10.
