

Quick Guide My Literacy and Numeracy Provision App

This information product shows provision and demographic data associated with Literacy and Numeracy funds submitted through Workspace2: ESOL - Intensive Literacy and Numeracy (ILN - ESOL), LN - Intensive Literacy and Numeracy (ILN), LN - Workplace Literacy (WLN - TEO-led), ESOL - Refugee English (ILN Refugee English).

Examples of what you can discover

- Value of delivery (in dollars exclusive of GST).
- Number of learners.
- Hours of delivery for L&N funds.
- EFTS delivered for the Refugee English fund.
- Information on learner demographics such as gender, age, ethnicity and iwi.
- Learner breakdown by country of origin.
- Forecasting of delivery for current year based on "Hours delivered YTD" and "Hours to be delivered by year end".

Things to note

- The "number of refugees" displayed in this app is the count of all learners from the Refugee English fund and all learners with the status of "refugee" in the L&N funds.
- If a learner has two or more ethnicities identified, they will be counted in each ethnicity. This means the total count by individual ethnicity may be greater than the total number of learners shown. This may also apply to other demographic information like age, gender and iwi.
- The "value of delivery" is not necessarily the funding received but is the "actual" value delivered.
- Literacy and Numeracy funds have been grouped together as "L&N funds" and ESOL Refugee English fund as "Refugee English fund".

Information provided by each sheet

Data Definitions

Take a look at the data definitions sheet in the app for more information on the following fields:

- Ethnicity
- EFTS delivered

- Hours delivered YTD
- Migrant or refugee

- Number of enrolments
- Value of delivery (\$ ex GST)
