

# Quick Guide: Tertiary Provision App

This app provides a picture of who is enrolling in tertiary education, what they are studying and where they are studying. The app uses enrolment data from the Single Data Return (SDR) and the Industry Training Register (ITR). Summary data for all Tertiary Education Organisations (TEOs) is shown.

Information can be filtered by reporting year, funding source, TEO type and TEO name. It is shown by number of learners, volume of delivery and value of delivery.

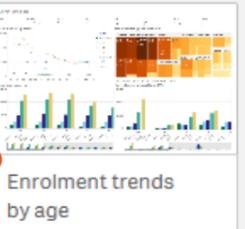

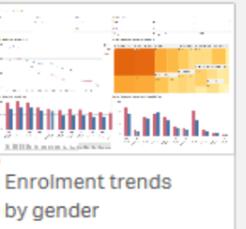

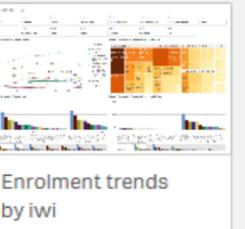

## Examples of what you can discover

- Trends in enrolments.
- Demographics of learners.
- The subject areas (NZSCED) available and how many learners enrol in these subject areas.

## Things to note

- Enrolment data is from 2011 onwards.
- Enrolment data includes all sources of funding that are eligible for TEC administered funding.
- To protect the privacy of individuals, all figures have been rounded to the closest 5. This means that some of the graphs and tables may add up to more than the total.
- If a learner has two or more ethnicities identified, they will be counted in each ethnicity. This means the total count by individual ethnicity may be greater than the total number of learners shown.
- If a learner has two or more iwi affiliations reported, they will be counted in each iwi. This means the total count by individual iwi may be greater than the total number of learners shown.
- NZSCED and learner age make use of a hierarchy: selecting one makes available the next level of the hierarchy.
- For SDR data: The most recent year's data is based on the latest SDR submission. For example, in November 2017 the most recent data is from the August 2017 SDR.
- For ITR data: The most recent data is based on the data held by the TEC on the previous day.

## Information provided by each sheet

|  |   |  |   |  |  |  |
|--|---|--|---|--|--|--|
|  <p><b>Summary</b></p> <p>Provides information about the key indicators (volume and value of delivery, and learner count) by NZSCED and TEO.</p> |  <p><b>Enrolment trends over time</b></p> <p>Provides information on volume and value of delivery over time and by NZQF level.</p> |  <p><b>Enrolments by delivery site</b></p> <p>Provides regional volume of delivery information by regional council and territorial authority.</p> |  <p><b>Enrolment trends by ethnicity</b></p> <p>Provides information on enrolment trends by ethnicity, NZSCED and NZQF level.</p> |  <p><b>Enrolment trends by age</b></p> <p>Provides information on enrolment trends by age, NZSCED and NZQF level.</p> |  <p><b>Enrolment trends by gender</b></p> <p>Provides information on enrolment trends by gender, NZSCED and NZQF level.</p> |  <p><b>Enrolment trends by iwi</b></p> <p>Provides information on enrolment trends by iwi, NZSCED and NZQF level.</p> |

## Data Definitions

Take a look at the data definitions sheet in the app for more information on the following fields:

- |             |                      |                        |                     |
|-------------|----------------------|------------------------|---------------------|
| • Age       | • Volume of delivery | • Delivery site region | • Value of delivery |
| • NZSCED    | • Funding source     | • Reporting year       | • Iwi               |
| • Ethnicity | • NZQF level         | • Delivery site TA     |                     |
