

Independent reviewers for Capital Asset Management of tertiary education institutions

All tertiary education institutions (TEIs) are expected to obtain an independent assessment of their Capital Asset Management (CAM) systems and processes. This independent review will alternate with a self-assessment every other year, unless otherwise agreed with the TEC.

Reviews must be carried out by one of the short-listed reviewers listed in below.

All of these reviewers are capable of undertaking independent reviews. This short-list was developed from a comprehensive assessment of each reviewer's knowledge, experience and capability to undertake reviews in the tertiary education sector.

How much will an external review cost?

The cost of a review will vary from reviewer to reviewer. We recommend you seek several quotes/proposals from reviewers to compare prices and the level of service being offered.

Reviewer	Contact person	Phone	Reviewer summary
AECOM NZ Ltd www.aecom.com	Ian Martin	M: 021 646 390 E: ian.martin@aecom.com	AECOM is recognised as an international leader in infrastructure business consulting through the development of leading guidelines, including the NAMS International Infrastructure Management Manual and Āpōpō AM Digital Badge content, the provision of AM support for the tertiary education sector, more than 50 local authorities, numerous government agencies and the private sector, and the benchmarking of AM practices of over 30 organisations across New Zealand and Australia.
