

### Information about the list:

- 1 The attached list includes the active NZQA level 4 qualifications that are in the targeted fields listed in the "Appendix" for apprenticeship boost effective from January 2025. The list was updated in January 2025 and is subject to change.
- 2 The qualifications are only eligible for apprenticeship boost if the Tertiary Education Organisation (TEO) has been approved by the TEC to deliver the qualifications as apprenticeships. The qualifications can be delivered through standalone apprenticeship programmes or complex apprenticeship programmes. The apprenticeship programmes can be arranged through work-based or provider-based TEOs. Different TEOs may have different arrangements and all these arrangements need to be approved before delivering them.
- 3 Apprenticeship Boost eligibility is determined by a range of criteria. Enrolments in the qualifications in the targeted fields do not necessarily mean the learners are eligible for Apprenticeship Boost. Please refer to the below webpage for the details of the eligibility criteria for Apprenticeship Boost.

- 4 The New Zealand Standard Classification of Education (NZSCED) is a subject-based classification system for courses and qualifications at TEOs in receipt of Government funding. NZSCED has been designed to improve the quality and consistency of statistics collected by the government agencies in relation to tertiary study, and to improve New Zealand's international statistical reporting compliance.  
Please refer to the education counts website for more information on NZSCED. [https://www.educationcounts.govt.nz/data-services/collecting-information/code-sets-and-classifications/new\\_zealand\\_standard\\_classification\\_of\\_education\\_nzsced](https://www.educationcounts.govt.nz/data-services/collecting-information/code-sets-and-classifications/new_zealand_standard_classification_of_education_nzsced)
- 5 The qualification titles reflect the latest approved version of the qualifications. The titles may vary slightly in different versions of the same qualification.
- 6 Data has been sourced through administrative data held by the TEC. It is based on information reported by tertiary educational organisations (TEOs) through the Single Data Return (SDR) and Industry Training Register (ITR) for the purposes of funding tertiary education. It does not include any reporting outside of the SDR or ITR and relies on the accuracy of data reported by TEOs. Care should be taken when making comparisons with data collected or compiled for other purposes.
